

# Meeting timer — State diagram

Two buttons • Presets: 15 → 20 → 25 → 30 → 15 minutes

**B2: MODE — applies from any state**

Stop → next preset → reload time → reposition popstick → Ready

Assumptions: B1 resumes after stopping; B1 is ignored while repositioning and at Finished.  
Startup: align the hand to zero while unpowered. Only Mode reloads the countdown during normal operation.
